Augsburg, 9 November 2016 – The premium car manufacturer further committed to quality technology products from Augsburg and awarded KUKA a contract for the supply of roughly 1,200 industrial robots of the KR QUANTEC generation, including the KR C4 controller, and additional robots from the KR FORTEC heavy-duty series. The robots will primarily carry out welding and handling tasks for body-in-white production in the manufacture of a vehicle series on the American market.

“Thanks to our comprehensive expertise as a leading automation specialist, we were able to once again convince our long-standing customer to choose KUKA. We are very proud of the collaborative partnership over so many years,” states Dr. Till Reuter, CEO of KUKA AG.
