The KR QUANTEC Ready Pack

Irresistibly short delivery times

With its optimally coordinated components, the KR QUANTEC Ready Pack is an impressive solution in every respect. Since the product package is ready for shipping in just four weeks, you can integrate the efficient automation solution smoothly into your production landscape within a very short space of time. Furthermore, the flexible, custom-fit KUKA industrial robot stands out for its low energy consumption, optimized interference contours and digitalized motion modes, making it ideally equipped to offer utmost performance and precision in the production of the future.
The KR QUANTEC Ready Pack

Irresistibly short delivery times

KR QUANTEC
With the KR QUANTEC, KUKA is presenting a robot generation whose innovative features taken together set new standards – for both conventional and digitalized production worlds. The all-rounder from KUKA is designed for applications in almost all market segments and offers the largest payload/reach portfolio on the market in the high payload category.

KR C4
One system controls everything: robot, motion, sequence, process and safety control. The KR C4 unites all the control tasks for the efficient use of robots in a single, smart system. With maximum energy efficiency. This sustainably conserves valuable resources and minimizes the cost risks inherent in rising energy prices.

KUKA smartPAD
With its large, high-resolution touch display, the KUKA smartPAD supports intuitive robot operation. Interactive dialog windows give users a transparent overview of the operating procedures and provide them with all the elements required for a specific task. This makes automation easier, quicker and more efficient.

Software
KUKA offers you expandable system software and ready-made robotic applications, integrated Soft PLC and extensive simulation tools – all in the familiar Windows design, 100% compatible and adapted to your automation solution. With the software from KUKA, your robots and systems are always programmed for productivity.

Software / options
- Freely configurable software types
- Connecting cable set
- Accessories
- Energy supply system A1–A3 as an option (ES handling with 2x compressed air, control cable, Profinet and Multibus cables)
