KUKA Refurbished Robots

_Our best refurbished robots, strictly selected

Tested quality. Refurbished robots from KUKA, inspected in accordance with strict factory criteria, offer you a decisive plus in terms of safety and technical support.

Future-proof. The efficient and responsible use of resources is firmly anchored in KUKA's actions. That is why the preferred materials for use in our robots are those that can be efficiently recycled in an environmentally-friendly manner. KUKA Refurbished robots and the optimization of running machines by means of retooling measures are further important elements of this corporate policy. The objective is to minimize our impact on resources by providing optimal support for our robots throughout their entire life cycle, thereby increasing their productive service life.

Over 40 years of experience in robotics. KUKA robots are built with great care to be robust enough for many years of operation in tough industrial conditions. They offer high value retention over many years, with the result that refurbished KUKA robots are much sought after as reliable production assistants. KUKA is so certain of the quality of its refurbished robots that it even rents them out on a trial basis. In this way, you can opt to purchase them on completion of satisfactory production trials.
